The ENX Association supports with TISAX (Trusted Information Security Assessment Exchange), on behalf of the VDA, the common acceptance of information security assessments in the automotive industry. TISAX assessments are conducted by TISAX audit providers that demonstrate their qualification at regular intervals. TISAX and TISAX results are not intended for the general public.

For Gubesch Group, confidentiality, availability and integrity of information are of great value. We have taken extensive measures to protect sensitive and/or confidential information. Therefore, we follow the information security assessment catalogue of the German Association of the Automotive Industry (VDA ISA). The assessment was conducted by a TISAX audit provider, in this case DQS.

Scope ID: S86MFH
Assessment ID: AXPYPG-4

The result is exclusively retrievable via the ENX Portal:
